

Rhozly

Your garden's brain — plan, grow, thrive.

FEATURE HIGHLIGHTS

Everything your garden needs, in one app

From a daily to-do list to an AI plant doctor, a scale garden designer to smart-sensor automation — Rhozly brings the whole craft of growing into one calm, beautiful place.

Daily dashboard

Today's tasks, your weather and every area of the garden — at a glance.

Garden AI assistant

Gemini-Pro-powered chat that knows your garden — it checks your data, answers anything, and stages changes for one-tap confirmation.

AI Plant Lens

Snap a photo to identify a plant and diagnose pests, disease or deficiencies.

Plant collection

Catalogue every plant you grow with photos, notes and journals.

Smart reminders

Weather-aware watering, feeding and pruning tasks so nothing's forgotten.

Garden Walk

A guided round of the garden — care for everything, plant by plant, in minutes.

Ailment Watchlist

Track the pests, diseases and invasives to watch for before they spread.

2D & 3D layouts

Draw your plot to scale, with sun and microclimate insight for every bed.

Weather & alerts

Local forecasts with frost and heatwave warnings, tuned to your plants.

Light & sun tools

Measure real light levels in lux and follow the sun's path in AR.

Expert guides

Step-by-step, skill-graded know-how — plus a community guide library.

Smart integrations

Live soil-moisture sensors and automated watering valves.

Harvest & yield

Harvest windows, yield logging and season totals for every crop you grow.

Shared gardens

Invite family or housemates, each with their own permissions.
